NaTHNaC Webinar Series

Getting to grips with dilemmas in practice

Thursday 22 March 2018: a breast feeding mum travelling with a 4 month old

Thursday 12 April 2018: pregnant traveller to Brazil with her partner

Thursday 19 April 2018: traveller with polymyalgia travelling to Suriname and onwards to Guyana

Further dates to be confirmed

Learning Outcomes

- Know the detailed information that you need to gather during the consultation to inform

your risk assessment.

- Be able to locate resources and use them appropriately to support your risk assessment.
- Be able to identify and discuss the issues involved with your traveller to enable them to make an informed choice and decide how they wish to manage the risks identified.

Webinar Hosts

Lisa Ford (NaTHNaC Clinical Advisor) and Hilary Simons (NaTHNaC Senior Nurse)

Duration

30 minutes (14.30-15.00)

IT System Requirements

NaTHNaC webinars are delivered using the web-based software, Zoom webinar. It is possible to attend from laptop or desktop computer running (Mac or PC), Android or iOS tablet or smartphone, or Windows PRO 2 or 3.

Attendees will require wired or wireless internet connection (WiFi or 3G plus) and audio (soundcard if computer, plus speakers or headphones).

It is also possible to dial in and join the webinar by phone. However, you will not then be able to view the presentations or take part in any interactive sessions such as polling or posing questions to the panellists.

If your computer does not have a sound card, you can listen by phone using the phone login details provided in your registration confirmation and whilst viewing the webinar on your computer.

- Once registered your internet connection can be tested using <https://zoom.us/test> to check your internet speed to join
