## **A new eLearning course from NaTHNaC**

### **NaTHNaC announces launch of a new eLearning course on risk assessment and risk management in the travel health consultation**

NaTHNaC is pleased to announce the launch of an [eLearning course on risk assessment and risk management in the travel health consultation](#). Comprised of five modules the course is aimed at health professionals who are new to undertaking risk assessment in the travel health consultation or those who are experienced and looking for a 'refresher'.

Learners are introduced to the general principles of risk assessment and risk management and the information needed in a travel health consultation. Using an interactive style, case studies and scenarios allow participants to apply the learning themselves.

Following completion of the course, a certificate is generated for entry into the professional development record.
